

TRANSFORMING THE WORLD WITH DATA

Juan M. Senquiz President of JC Automation (on left) CEO of OSIsoft (on right)

In 2013 JCA became OSIsoft principal partner for the life science industry in Puerto Rico. JCA has trained and integrated a talented group to support OSIsoft platform projects. Our local presence, experience with life sciences instrumentation & control systems combined with our OSIsoft talent pool make JCA your best option for OSIsoft implementations projects. Since 2013 we have participated in several OSIsoft implementations including interface configuration, visualization, reporting, training and validation projects.

OSIsoft believes people with data will transform their world. The PI System data infrastructure sets free the data that's locked in systems. Turning data to information, the PI System connects people to information across the value chain to deliver operational intelligence that leads to actionable and transformative decisions. What makes the PI System unique is its ability to collect enormous amounts of high-fidelity, time

-series data from any source-consistently, reliably and accurately. Then share that data in intuitive ways with people and tools that can make a difference".  
OSIsoft

**“ We have a strong PI team with over 15 PI trained resources. Our experience includes systems integrated to PI System as: Coating Pan, Bohle Granulator, Bosch Fillers, Lyo Freeze-Drying, QBAS, Parts Washer, PK Blender and others. ”**  
-JCA's Principal Juan M. Senquiz

## ABOUT OSIsoft

OSIsoft delivers the PI System, the industry standard in enterprise infrastructure, for management of real-time data and events. With installations in 110 countries spanning the globe, the PI System is used in manufacturing, energy, utilities, life sciences, data centers, facilities and the process industries. Fourteen of the top fifteen pharmaceutical companies use the OSIsoft PI System.
